

## Turntable Mounting Chart

	Standing	Ceiling mounting	Wall mounting
CSWD100	10 kg	5 kg	Yes
TTC200H	No	20 kg	No
TTC200	20 kg	No	No
TTC300	30 kg	No	No
TTC500	50 kg	25 kg	Yes
TTCSW1000	100 kg	50 kg	Yes
TTCSW2000	200 kg	50 kg	Yes
TTCSW3000	300 kg	50 kg	Yes
CEU5000	500 kg	150 kg	Yes
CEU7500	750 kg	150 kg	Yes

By using a safety construction the hanging load of CEU5000 and CEU7500 can be raised up to 500 kg.

NOTE: For vertical installation (e.g. on the wall), a balanced load is required.

***Important:***

**The load of the turntable is the combined effect of weight, bending moments, various conditions at the place of installation (e.g. impact / bending load by wind power, passers-by, possible higher safety requirements for displays suspended over public, e.g. at fairs or trade shows, etc.) so that the maximum permissible weight has to be adapted according to each application in part.**

Therefore a load index cannot be given for wall mounting installations.
