

Product Description **New** Turntable C S T 0 3

Technical Data

Maximum centric load: 3,000 kg / 6,600 lbs

Turn plate: Ø 1250 mm

Height of turntable 230mm

Pedestal: 860 x 860 mm

Total height of turntable: 230mm

Dead weight: approx. 400 kg

Rotating speed: 1.0 rpm

Rotation direction: clockwise (cw)

Operating voltage: 220 – 240 volt AC, 50 Hz

Asynchronous Gear Motor: torque 25 Nm

Power consumption: approx. 180 W

Rotating power supply by collecting ring for up to 16 A (means 3,500 watts)
 (on request: separate power cord with country specific plug)

Power cord: approx. 2

Color: black

Special Features:

Belt drive, adjustable

Safety friction clutch by driving belt

Very low noise

Outdoor operation: protection class IP 53

Options:

Extension bars to enlarge the revolving platform up to Ø 4,000 mm

Speed regulation by Frequency Converter (relation 1:10)

Rotation direction: counterclockwise (ccw)

Switch for changing rotation direction

On request: special functions : reversing operation, cycle operation, stop times, soft start and soft stop.

Subject to technical changes.

Stand 09-2012
