

Turntable C S W D 1 0 0 C S W D 2 0 0

Due to its zinc die casting with rotation axis in a double ball bearing the C S W D 100 is a compact, universal and extremely robust turntable.

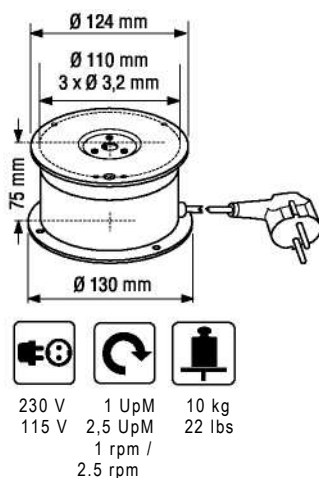

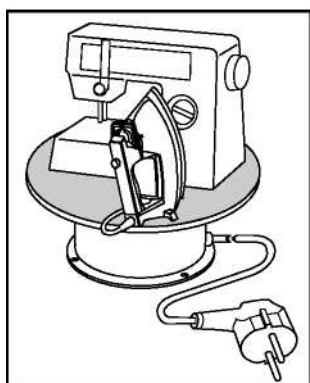

It is available for indoor use in horizontal position, wall or ceiling mounted. The centric load allows up to 10 kg (22 lbs) (wall or ceiling mounted up to 5 kg (11 lbs)).

With collecting ring it is a versatile and reliable turntable.

The new ceiling mounted turntable C S W D 200 H was developed on the basis of the C S W D 100 for a load of up to 20 kg (44 lbs).

Special features:

- ☒ Torsion resistant housing in zinc or white coated
- ☒ Bending resistant rotation axis
- ☒ Low noise
- ☒ Maintenance free
- ☒ Safety clutch
- ☒ Optional with rotating power supply
- ☒ Rotation direction and speed on customers requirement
- ☒ Weight without collecting ring 1.1 kg
- ☒ Input power 4 W (further data on enquiry)
- ☒ Turntable applicable for up to 5 kg hanging load also
